PROFILE

A Bachelor of Informatics Engineering with a strong passion for exploring new technologies and innovative solutions. My curiosity drives me to continuously seek challenges that test my limits, enabling personal and professional growth. Highly skilled in public speaking, allowing effective communication of complex ideas to diverse audiences. My ability to adapt quickly, combined with a strong interest in lifelong learning, makes me a valuable asset in dynamic and fast-paced environments. I aim to contribute my expertise and enthusiasm to forward-thinking projects requiring a blend of technical proficiency and strong communication skills.

- Made prompt and accurate decisions to overcome challenges and propel the organization towards its goals.
- Fostered a collaborative environment among members, encouraging participation and alignment with the organization's vision.
- Represented the organization at various forums and maintained strong relationships with external stakeholders.

PROJECT EXPERIENCE

Fullstack Developer: Laravel Backend, React Frontend

Apr – Jun 2024

Mapping Tourism Objects in Pemalang Regency Using WEBGIS

- Developed a web-based Geographic Information System (WebGIS) to map tourism objects in Pemalang Regency as part of my final thesis project.
- Designed and implemented the backend using Laravel, ensuring robust and efficient data management, including database design, API development, and server-side logic.
- Built the frontend using React.js to create an interactive and user-friendly interface, allowing users to explore and discover various tourist locations in the region.
- Integrated GIS functionality to display geographical data and provide dynamic mapping capabilities.
- Ensured seamless integration between frontend and backend, delivering a fully functional web application.

Frontend Frontend Developer dengan React.js

Jun – Agu 2024

Paku Aji Furniture, CV Paku Aji Indonesia

- Developed the web application frontend for Paku Aji Furniture, a company specializing in wooden furniture and household items.
- Utilized React.js to create a responsive and intuitive user interface showcasing the company's handcrafted furniture and household products
- Collaborated closely with the backend team to ensure smooth API integration and data flow between frontend and backend
- Contributed to the project from design to implementation, ensuring the final product met the company's branding and usability standards.
