PROFILE

Bachelor of Informatics Engineering with a strong passion for exploring new technologies and innovative solutions. My curiosity drives me to constantly seek out challenges that push my limits, enabling me to grow both professionally and personally. I am particularly skilled in public speaking, which allows me to effectively communicate complex ideas to diverse audiences. My ability to adapt quickly, combined with a keen interest in continuous learning, makes me a valuable asset in dynamic and fast-paced environments. I am eager to contribute my expertise and enthusiasm to forward-thinking projects that require a blend of technical proficiency and strong communication skills.

PROJECT EXPERIENCE

Fullstack Developer: Laravel Backend, React Frontend

Apr - Jun 2024

Web-based GIS for Tourism Mapping in Pemalang Regency

- Developed a web-based Geographic Information System (WebGIS) for mapping tourist attractions in Pemalang Regency as part of my final thesis project.
- Designed and implemented the backend using Laravel, ensuring robust and efficient data management, including database design, API development, and server-side logic.
- Built the frontend using React.js to create an interactive and user-friendly interface, enabling users to explore and locate various tourist sites within the region.
- Integrated GIS functionalities to display geographical data and provide dynamic mapping capabilities.
- Ensuring seamless integration between the frontend and backend, and delivering a fully functional web application.

Frontend Developer with React.js

Apr - Jun 2024

Paku Aji Furniture by CV Paku Aji Indonesia

- Developed the frontend of a web application for Paku Aji Furniture, a company specializing in wooden furniture and household items.
- Used React.js to create a responsive and intuitive user interface that showcases the company's range of wooden furniture and handcrafted household products.
- Collaborated closely with the backend team to ensure seamless integration of APIs and data flow between the frontend and backend.
- Contributed to the project from design to deployment, ensuring the final product met the company's branding and usability standards.
